September 2023	148	135	We had a delay implementing the SGDs impact assessment system. Data is from November 14, 2022 to July 25, 2023. Our objective was to assess all funded research activities (148). However, there were 13 requests that were funded but that were not research projects, like technical advice activities, so this assessment did not apply to these activities (13). The impact of every project can be seen in the following link: <a href="#">click here</a>
