Definition of the Indicator:
1i. Number of projects assessment per year

Person responsible:	Start date:	Linked to Action:
Vice-Rector of Research	January 2022	28ACT: IMPLEMENT A SYSTEM FOR ASSESSMENT THE IMPACT OF EACH RESEARCH PROJECT ON THE SUSTAINABLE DEVELOPMENT GOALS (SDGs**)**

Way of obtaining data:
Office for Responsible Research (OIR)

Units it is measures in:	Data collection periodicity:
Number	Annual

FOLLOW-UP DATE	NO. PLANNED	NO. OBTAINED	COMMENTS, SUGGESTED IMPROVEMENTS
September 2023	148	135	We had a delay implementing the SGDs impact assessment system. Data is from November 14, 2022 to July 25, 2023. Our objective was to **assess all funded research activities** (148). However, there were 13 requests that were funded but that were not research projects, like technical advice activities, so this assessment did not apply to these activities (13). The impact of every project can be seen in the following link: click here
September 2024	262	247	From all research activities that submit to a competitive call for funding (262), there were 15 request that were not research project, like technical advice activities, so assessment on SDGs did not apply to these activities.
September 2025	375	362	From all research activities that submit to a competitive call for funding (262), there were 13 request that were not research project, like technical advice activities, so assessment on SDGs did not apply to these activities.
